# BINARY HUE

Create unique environments with the ability to select 2 different LED hues per fixture in either a PAR20, PAR30 or PAR38 scale optical array.

Each color has an LED driver and 2 wire connection to control individually the intensity of each hue separately from a single LED optical array per fixture.

6 different white hues and 6 different colored hues to select per LED optical array.

Option 1	Option 2
- 2200K	- UV365
- 2700K	- UV390
- 3000K	- Red
- 3500K	- Green
- 4000K	- Blue
- 5000K	- Amber
- 6500K	
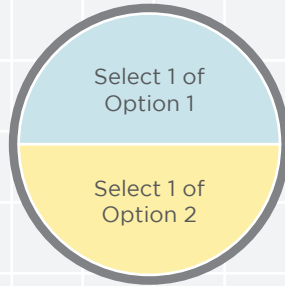

PAR20 Scale
(2 circuit - 6 LED)
