

MR1-632-PAR16

8.4W Two LED Recessed Directional 4" Diameter

Plaster Ceiling Trim-Less Installation Instructions

CLARTÉ™ LIGHTING

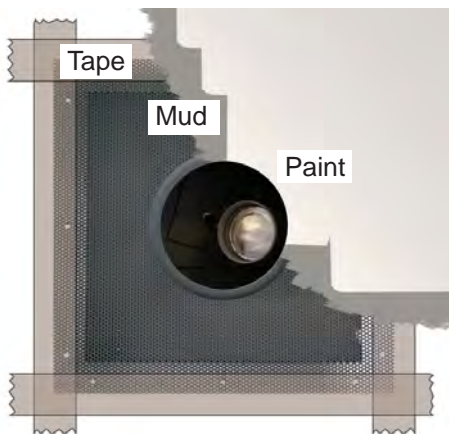

Wiring Diagram

6. Connect ballast black wire to line Black wire. Connect ballast white wire to line white wire. Connect ballast ground wire to line ground wire. Snap Close the J-Box and secure Ballast inside holding clips and replace side panel access cover.

7. If applicable Push up Light Fixture through top housing access and screw Fixture onto top housing access.

8. Install perforated aluminum face plate. Use 2" counter sunk screws provided to attach through holes on face plate.

Tape and Mud over four sides of perforated aluminum face plate. Plaster finish and Paint ceiling to specified color

9. Rotate or adjust light fixture to achieve the desired direction of illumination.

Restore power and check the operation of your new **CLARTÉ** light fixture.
