

Build American Buy America Act – Compliant

The aluminum extrusion used in 100% of Clarté Lighting's 5 scale LED optical arrays outer smooth fixture sleeve and inner heat sync is sourced and formed in Southern California.

A 100% of fixture designs, fabrication, paint and assembly is completed in Southern California.

A 100% of Clarté Lighting's design and fabrication occurs in our Studio in Covina, CA with over 55% the cost of the component's sourced from US suppliers and fabricators qualifying for the Build America Buy America Act.
