

TUNABLE WHITE

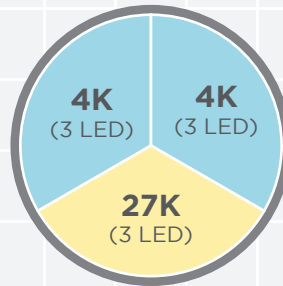

Any PAR20, PAR30, or PAR38 - Recessed, Surface, or 2-Circuit Track Clarté LED solution can be specified in tunable white with 27K and 4K LED's allowing the ability to tune the color from 27K through 4K.

The PAR20 scale optical array will have 2 circuits with 3 LED's per circuit, the PAR30 will have 3 circuits with 3 LED's per circuit and the PAR38 will have 3 circuits of 4 LED's each.

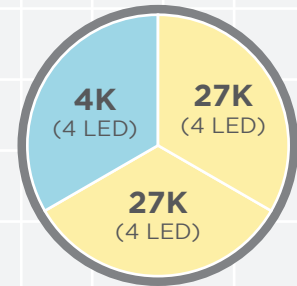

PAR20 Scale
(2 circuit - 6 LED)

Choose up to 3

PAR30 Scale
(3 circuit - 9 LED)

Choose up to 3

PAR38 Scale
(3 circuit - 12 LED)

The tunable White fixture has a minimum of 2 circuits for each optical array with the ability to control the color temperature of the light with 0-10V, electronic triac, DMX our standard forward phase MLV dimming per circuit.
